

The program is a free and open source audio/video converter. Although most people seem to use the program, it is very powerful and versatile. Version: V 0.12 Alpha 3 - 30/07/2007 Video Converter Factory Alpha Description: This is a small tool for creating video playlists. It supports all video formats, any size and any frame rate, but it's not as powerful as other players. It includes a web browser, an image viewer, video/audio editor and a video player. The player supports the playlist feature. Version: V 0.15 - 24/10/2008 Playlist Maker Description: When you open a folder, this program will search automatically for new files in that folder. If no such file is found, it will automatically create one. These files can be any type of file. To create a new playlist you have to select the folder from which the files should be found. Description: iOrg is a small application that helps you to organize your music collection. It is very simple and easy to use. It contains a lot of features, including the ability to filter songs by various criteria, sort the songs by clicking on the headings or, if you have the Remote Desktop option enabled, click on buttons on the control panel to perform various operations. In addition, it has a small audio player that can be used to preview a song. Version: V 1.0 - 12/01/2008 iOrg Audio Player Description: iOrg is a small application that helps you to organize your music collection. It is very simple and easy to use. It contains a lot of features, including the ability to filter songs by various criteria, sort the songs by clicking on the headings or, if you have the Remote Desktop option enabled, click on buttons on the control panel to perform various operations. In addition, it has a small audio player that can be used to preview a song. **System Requirements:**

To enjoy this website fully, you will need a modern browser, a fast internet connection, and a fairly new copy of Photoshop. As a PSD designer, I spent a lot of time creating the site, but I'm no expert on making graphic design websites. If you have any problems with the site, please let me know. Print-ready: I'm going to work on adding more content as the years go on, and the site shouldn't be completely accurate after several years (I don't anticipate there being any major version upgrades
