Screenshots Features Real-time combat with several unique game modes such as Campaign, Free Flight, Instant Action, Over the Shoulder, Multiplayer Online and more. Targeting. Customized targeting. Radar & Targeting Radar. All of the planes including the Su-27 pilot, receive location-based targeting data from GCS / AIR assets and ground-control stations. Fixed Weapons & Radar. Detailed weapon damage modelling. Exhausts are applied to the gun's muzzle and the force of the fired projectile (the jet exhaust). Detailed weapons modelling. The effectiveness of the aircraft's radar is modelled. El manantial de las colinas 2 (1986) [HDRip-AC3][Castellano]El manantial de las colinasÂ . Digital Damage Models. Realistic aircraft damage models. Accurate particle-based damage model. Realistic engine damage models. Digital damage models enable damage of all simulation assets to be modelled with a high level of detail and also simulate damage effects such as explosion and flash. Digital Damage Models A digital damage model contains a digital simulation of an actual plane, which simulates details of the life of the plane such as the effect of the penetration of bullets, the effect of fire and the effect of an explosion, but does not require a physical plane. Weapons. El manantial de las colinas 2 (1986) [HDRip-AC3][Castellano]El manantial de las colinasÂ . Sky Views & Ground Views. Ray Traced 2D GRAPHICS & SKY VIEWS. In-game weather effects. High resolution 3D graphics. Ray-traced 2D graphics are used for the map and the 2D sky views. World is rendered in real-time as a sphere. Clouds are animated and fluttering. All the weather effects can be changed and controlled through the in-game settings. It is recommended to run the game in a windowed mode (Or use compositing software to have the game window appear behind the desktop window - like in windows 7). Radio & Radios. IRPWS (Inexpensive Realistic Physics Based Weapons System). Flight Simulation System. PWS (Projectile Weapon System) is a

digital camera system. The camera records shots and kills the enemy. The AI of the plane can be controlled through the cockpit voice-injection (CVN). Landing Gear.
