• RPGfan's Review "RPG Fan's Review" By RPGFan There are a lot of games out there that you could brandish the power of an Elden Ring Cracked Version and become an Elden Lord in. Take Final Fantasy VIII for example. It's a game that anyone who was a fan of the Final Fantasy series could enjoy, yet it also had plenty of new and improved features in it. It's a game that's played online, and while it's a big, entertaining experience, it's not as daunting as one would expect from a new Final Fantasy game. That's why I'm also quite excited about Final Fantasy XIV: A Realm Reborn, a new Final Fantasy title from the makers of both Final Fantasy XIII and Final Fantasy XIII-2. It's a game that's online only, a very popular online element in gaming these days, and it's a game that wants you to invest in the world, your party, and your character. What am I talking about, you ask? Final Fantasy XIV takes place in the world that we've seen in a lot of Final Fantasy games, and it takes place in the old age when the Original Sin was sent upon the world by Zozo, as we learn the tale from Naminé, a senile old woman who has lost her memory. In this day and age, corruption and magic are everywhere, and something terrible has happened to the place Naminé called Eden. Something terrible, something that could destroy the world. The game takes place in the town of Nak Mu-Nam, but that's just the first step. Once the heroes have left the town, they have to head to Taldryan, a large, desert-like town located northeast of Naminé's village. Once you begin the process of exploring and investigating, you find that Naminé's town is just a tip of the iceberg in all of this. Soon, you discover the Tranquil Aurora, the former Grand Tree of the world. It's there that you find the Odoluthi, the high-level wizards who were only seemingly wasted by Zozo and the Original Sin. They quickly make you realize that something terrible is going on with the world, and as you get further into the world, you find that something is also coming from the Elden Tree. All of these things lead to a huge, bigger issue, one that involves the moment of the Seventh Umbral Era, the moment when the Star of Eden will fall bff6bb2d33

► Powerful Battle System with Unique Combinations of Skills An evolution of the old-fashioned RPG battle system, the Battle System features a variety of new features including: ■ Square Battles Engage in a single-

on-one battle. ■ Virtual Monsters Fight against extremely powerful monsters through succession battles. ■ Can Link Up Consolidate your accumulated skills to create strong team combinations. ■ Chain Missions Fight cooperatively as a party that includes your friend, "Jump-in friends," or the "Battle Buddies." The Battle System not only makes for incredible exciting battles, but also allows you to enjoy an immersive story while carrying out quests. Controlled Battles: ► Multiple Ways to Acquire New Skills Not only will you be able to gain experience points through battles, but there will also be some element battles and exclusive quests to gather valuable materials. ♦ Auto-Battle Use this button to automatically commence battles. ♦ Square Battles A battle mode in which you fight using a button. ♦ Mission Quests Fight against powerful monsters to gather materials for new abilities.

Special Quest Acquire items by defeating the protagonist in battle or through limited quests. Handling skills with "Hands" Skill combinations are determined through "Hand Coordination," a new feature allowing you to assign hands to the buttons used to execute skills. The active skills displayed on the screen will also change depending on your actual hand position. ■ 2 Ears of the Dragon Assign these to the button used to use the dragon's wisdom power. ■ Thief's Eye Assign these to the button used to use the thief's strength power. ■ Fighter's Right Assign these to the button used to use the fighter's power. For example, if you assign the hawk to "2 Ears of the Dragon" while the wind is on "Thief's Eye," you will be able to use "Dragon's Wisdom" and "Thief's Power" without switching the button. What's new:

Enjoy the thrill of cutting-edge CGI in a fantasy world.

Best Buy has Sonys RPG Cold Blooded for \$49.99. SEGA hadn't release a new RPG in the American market in some time, and Iron Tower Brawler is a nice way to test if the country is still quite interested in the genre. If they are, then maybe -- just maybe -- we should get another act approved for Grand Theft Auto 6.

Though the game is still in development and doesn't have a release date, SEGA provided a couple of screenshots for those who aren't keen on having their Sega Saturn and Dreamcast stolen by unsavory gamers. What do you think? What is your favorite fantasy RPG these days? Are you excited for someone to create something worth it big time again?
