Various monsters, events, item, and challenges on a large scale created for players to enjoy the fantasy adventure.

A variety of locales with a three dimensional design, such as fantasy themed forests, provide a range of attractive visuals.

A battle taking place on such an interesting stage, as a battle using a fully-featured three-

dimensional battle model.

Three main character classes that play their own role in the story, including the swordsman, magic-user, and renown genius.

Combine your growth and experience to unlock new classes.

By using a two-tiered ranking, battles are conducted while you enjoy real-time determination contests among players that feel like a fight.

Players can earn in-game items such as buff points, magic scrolls, and rare weapons by competing and winning, where the prizes will be sent to your mailbox later on.

Class-specific abilities and skill combinations open up new strategies for players.

In-game events in addition to a vast story that arises from delicate connections ensure that there is lots to do.

You can play in three stages, including a training area, main story, and FM map guide. These maps are completely open so that players can enjoy the next contest even while playing the story.

A variety of improvements, such as new quests, contents of the main story, and a battle system, have been added in advance of the launch in April 2014 in the test stage.

More information about the game is available on the official site. Enjoy the official site in English.
