Get started with Inventor Professional 2017.. BIM 360 Design is designed for any Autodesk product, but is most helpful in Autodesk Revit. The Autodesk BIM 360 Design platform enables users to share ideas, models and plans in a collaborative, team-based environment. The Autodesk BIM 360 Design platform is a cloud-based, multitenant solution that is available through a dedicated App that enables you to work directly from BIM 360 Design in your favorite CAD application, or via the web-based experience of BIM 360 Design. This site is directed to enable team-based BIM. When I say BIM, I mean its 3D visualization, but also its data. The data comes in different formats. BIM 360 Design has the capability to export to most major CAD packages. BIM 360 Design comes with a Web App, a Desktop App for Mac or Windows, and a Mobile App for Android and iOS. It also has a REST API so that you can automate the data flow to your preferred CAD system. Examples of your data can be rendered in BIM 360 Design in real-time. It can also be exported to other formats,
