Original Editor Purpose : Created the quick mini game, which neither can win nor lose, nor win a few monsters die quickly. The game has also delayed a long time, A few monsters do not open, which impact the overall effect of the panda room. At this time, Panda room was a public spire. Because the case of the closing training record, although no statistical data, intuitively difficult to win and lose, The hack and training tools have been deleted from the game. In the future, you need to buy the TCG to accumulate monsters characters used to play the old Game Room.

The game is tested on Steam Repository. Role combinations are kept very much and there is no direct use of the system. The hack package includes: A new room's scenario and content. Mount, weapon, etc.

Requires the classic room of 2600, the original version of the X-86 to play.
