AI will no longer stand still while a player in possession of the ball and will make runs to support. Goalkeepers will now challenge the ball with anticipation, making it harder to score. As in FIFA 19, players take running shots in addition to the automated tactic engine. In addition to new tactical layers, gameplay tweaks, and many other innovations, FIFA 22 now features a new Club Matchmaking structure. “Club Matchmaking has seen a number of changes in FIFA 22 to create more competition in the online environment,” said Andrew Darby, Senior Producer at Electronic Arts. “The changes we’ve made to the system remove some of the predictability that has prevailed when using the system in the past, and have given players a new incentive to participate in Club Matchmaking.” Club Matchmaking offers a new experience for a new generation of players who like to play FIFA without control, and who embrace spontaneous competition. • Earn more ranking points for wins than losses, with rewards for playing both Club and Draft modes • Three tiers of Club Matchmaking: Club Team, Club League, and Club Duels • New Player Experience: Club Team • Draft Team: Control your team for the first time with FIFA, or use unique Draft Mode features to build a winning team • New Player Experience: Draft Mode • Customizable Club Team: A new way for users to define the intensity of their matches based on team style, goalkeeper choices, and defender and midfielder formations • New Club League: With only three matches per round, Club League rewards users with gameplay based on a single game match but at a competitive level
