Hi all, I have the original disc. The disc has some scratches and a bend on it. I have tried to find a way to play it in my computer. It worked once for a little while, but then it played very slow, like it's stuck. I was wondering if it is because the disc is scratched. Does it need to be backed up on your computer if you want to be able to play it for a while?

Thanks, I'll check that out. I found this article which says that you need to "Clean your disc, with a cleaning solution made specifically for this problem. It works by rubbing the disc repeatedly until the disc stops making noise." Doesn't seem like the easiest way to do this though.
