#### Wipe Free Space GUI

\*Wipe Free Space GUI Crack Keygen is designed to securely erase and destroy files and data to prevent recovery of deleted sensitive data. \*Wipe Free Space GUI comes with a built in in-built "Erasing algorithm" that can wipe large amounts of data at an incredible speed, where the average professional NTFS erase disk can only wipe 20-100 Mb per minute but Wipe Free Space GUI can wipe up to 5-20 GB of data per minute, depending on the size of partitions or drives. \*Wipe Free Space GUI has a unique feature that it can overwrite data sets even faster than a standard NTFS data erase. If even faster erase is needed, it can be set to overwrite even more data. \*Wipe Free Space GUI supports FAT, FAT32, NTFS, FFS, Ext2, Ext3, Ext4, ReiserFS, ReiserFSv3, ReiserFSv4, XFS, NTFSv1 and NTFSv2 partitions and drives. \*No matter what file system format you have on a drive, Wipe Free Space GUI can wipe it! \*Wipe Free Space GUI is configured with default and easy to use settings that you can adjust in the program to meet your particular needs. \*Wipe Free Space GUI uses a highly secure random algorithm that can not be reverse engineered to recover deleted files, so even if the drive or partition is recovered by a malicious user or malicious program, the data remains secure and unseen by anyone. \*Wipe Free Space GUI can be used to securely erase sensitive data on hard drives, removable drives, pen drives, digital cameras, mobile phones, memory cards and portable hard drives, and supports USB drives. \*Wipe Free Space GUI has the ability to "Wipe free space" of files and empty files, and has the ability to securely "Wipe free space" of "RAW" files. This feature is typically only found on enterprise grade erasers for example, Acronis True Image for example, but Wipe Free Space GUI offers these features as well. \*Wipe Free Space GUI supports Windows and Linux operating systems. \*Wipe Free Space GUI is compatible with the new 100% free, patented "NukeEraser" technology that, as the name implies, completely erases your data, no matter the file system type, sector size or volume size. It can securely shred and completely nuke free data to prevent recovery on any type of drive

#### What's New In Wipe Free Space GUI?

Wipe Free Space GUI is one of the best utilities to securely erase free space data to prevent recovery of deleted sensitive data. The system can securely erase FREE SPACE from ext2, ext3, ext4, NTFS, XFS, ReiserFSv3, ReiserFSv4, FAT12, FAT16, FAT32, MinixFSv1 and MinixFSv2 partition or drives. The free space securely wiped can't be recovered and the free space is permanently wiped to prevent data recovery. Wipe Free Space GUI has a user friendly interface that can quickly wipe free space. It is also fully secure as it will open "safe mode" before wiping the free space and it will not allow the user to cancel the safe mode. This program will also display a progress bar during the secure wiping process and the free space will be carefully and securely wiped away. The safe mode also includes the ability of self-healing of drives, so the program will automatically restart the wiping process if the drive is not valid. SECURE WIPE FREE SPACE FASTER THAN ANY WIPING PROGRAM! Wipe Free Space GUI is great for securely wiping free space data as quickly as the shred program. It's fast and does not slow down your computer. It will securely wipe Free Space from ext2, ext3, ext4, NTFS, XFS, ReiserFSv3, ReiserFSv4, FAT12, FAT16, FAT32, MinixFSv1 and MinixFSv2 partition or drives. Wipe Free Space GUI provides a user friendly interface that is easy to use for securely wiping Free Space. The secure wiping process will ensure that there is no data recovery of any kind. All of the space will be securely wiped until the free space is completely empty and no longer available. Wipe Free Space GUI can securely erase FREE SPACE on drives or partitions, even if it is mounted and will not allow the user to cancel the secure wiping process. The secure wiping process can be opened for removing files without damaging them. Wipe Free Space GUI will display a progress bar during the secure wiping process. Wipe Free Space GUI can securely erase FREE SPACE, even if the Free Space is in "read only" state. The free space will not be inaccessible to the user. The secure wiping process will also display a progress bar to show the user how much of the free space

---
