Funny on facebook: The game is easy to remember, even though it's so long. Clueabbey The characters are all named after famous/infamous gypsies (or spirit traveling sages). You have to solve each clue by thinking the name of a human being/power/place/occupation in the query. If you answer the first part correctly, it will provide you with the answer to the second part, or vice-versa. Well done in confusing us! I hope you plan on adding some more characters! If you plan on having lots of characters, please add support for people who don't speak english to read the instructions and the bookmarks. NOTE: You can also use this one [bookmark!
