
Percona Server For MongoDB 3.6.11-3.1 Is Now Available |WORK|

percona server mongodb 3.6.11-3.1 is now available for download. The current version is 3.6.11 and is based on the JBoss 5.1 release. The server will be released as part of the Mesos Cluster 1.x release. Sometimes, during a Mesos cluster operation, the server will show an error. This error might be caused by an error in the Mesos cluster database, the configuration of the server, or the data that the server generates. In most cases, the server can be restarted to correct the error, but there are some cases where this is not possible.
