Microsoft 365 Personal is a subscription-based service that includes everything you need for work, play, and everything in between. It's an all-in-one package that offers everything in one subscription and is made for home use. It's also suitable for educational institutions. As per the information we have received, the latest version of Office 365 is already available to users. Microsoft 365, as the name suggests, is a bundled subscription package of Microsoft products. Microsoft 365 is basically a complete package of Microsoft Office, Microsoft OneDrive and Microsoft Azure Cloud services. To be able to use Office 365, you need to have Office 365 subscription for both home and work users. Note that this will be a monthly cost. The subscription might consist of a monthly payment or monthly fees, but what you pay for is the number of hours that you use. After the download is complete, the Office 365 application will open in the system. The first step is to activate the application. To do this, click on the "activate" button on the top-left corner of the application. On the next screen, click on "activate" to complete the process. On this page, you will see a link to get the key. Click on this link and you will be directed to the Microsoft web site. You will be asked to fill in the product key you just got from the Office 365 application and you will be prompted to enter your password, then click on "next" to complete the process. An Office 365 tenant can own a maximum of 2,000 licenses for a Microsoft 365 subscription. Each tenant is also permitted a maximum of 1,000 users. If a customer owns more than 2,000 licenses or has more than 1,000 users, the customer must report the moderate usage to Office 365 support.
