

Jul 25, 2555 B.C. - I'm a new Italian user and I bought Medieval 2 Total War Gold Edition (v. 1.03) in English because I didn't find it in Italian. ^ I want to uninstall and reinstall the game. I can uninstall and reinstall and I can also run the installer and it works fine but I need help to reinstall english not italian. Since I don't know how to uninstall and reinstall english, when i reinstall italian i want to reinstall english but i don't know how. I have read that I have to be in the start menu that I have in Windows and I have to press "Windows+ I".
